

VIBRATING FEEDER

Stainless steel vibrating magnetic feeder

The vibrating magnetic feeder can give precise feeding of most of materials which are dry, wet, that are wet, dry, moist, sticky, lumpy, coarse, granular, powdery, abrasive etc. They are favourable for doing, application include feeding of weigh bins or weigh feeders, or steady and smooth feeding. Comparing with common vibratory feeder, it has advantage of high frequency, low power consumption and low damage rate.

Feature

1. Stable and long span life.
2. Easy to adjust.
3. Reliable operation.
4. Easy maintenance.
5. Step-less adjustable feed rate.

Model	Capacity t/h	Dimension B x L x H (mm)	Material size mm	Vibrating motor	
				Model	Power kW
DZ60-4	85	600 x 1200 x 250	50	16-4	0.75 x 2
DZ70-4	100	700 x 1300 x 280	50	16-4	0.75 x 2
DZ80-4	200	800 x 1600 x 300	50	16-4	0.75 x 2
DZ90-4	220	900 x 1600 x 350	50	20-4	1.1 x 2
DZ100-4	240	1000 x 1600 x 350		32-4	1.5 x 2
DZ110-4	400	1100 x 1800 x 400		32-4	1.5 x 2
DZ120-4	440	1200 x 2000 x 400	50	32-4	1.5 x 2
DZ80-6	160	800 x 1600 x 300		30-6	2.2 x 2
DZ110-6	320	1000 x 1600 x 350		50-6	3.7 x 2
DZ150-4	500	1500 x 2200 x 400	50	50-6	3.7 x 2
